

9.SOLUTIONS

5/8" Rod Set (250mm)

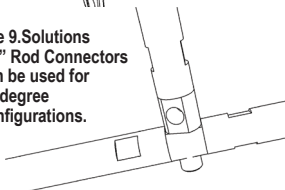

Multiple rods can be used to create larger structures for rigging cameras, lights, and a variety of other equipment.

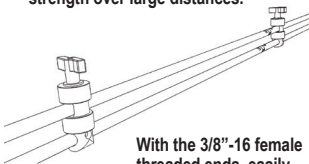

A 1/2" or 13mm wrench can be used to tighten rods together (do not overtighten).

The 9.Solutions 5/8" Rod Connectors can be used for 90-degree configurations.

9.Solutions 5/8" Gags can be used to double-up 5/8" Rods to increase strength over large distances.

With the 3/8"-16 female threaded ends, easily adapt from 5/8" Rods to 3/8" Rods.
