

## Double Joint Arm Long (660mm)

The Double Joint Arm has ball joints on both ends that are locked into position by a single-point tightening mechanism.

Each ball joint has a 5/8" pin with a 3/8"-16 female thread, making it easy to mount and position lights, cameras, monitors, or a wide variety of equipment at any angle.

Thanks for purchasing a 9.Solutions product. With great passion, we design our products to be as versatile as possible. We hope that our products contribute to your creative vision.

Sincerely,

The 9.Solutions Team

The Double Joint Arm comes in four sizes:
